Three (More) Ways to Store a CD Collection

Not everyone is giving up CDs and moving to purely digital files - so how do you store those CDs, when you want to keep them in their jewel cases? I've [addressed this before](#) - but here are some new ideas.

From [Pandicular](#) in Germany comes the [Cainad](#) modular media shelf. Each CD module is 90 cm (35.4 inches) wide and 16.6 cm high - and your filled shelves will only be as deep as a CD jewel case. Each module stores 74 CDs in their cases. I can't find any information on what the shelving is made of. [Found on [DesignSpray](#); DesignSpray found via [From Europe](#)]
