## Indecision Random Post

So I've been staring at my Google Reader "starred items" for two days now and I can't decide which of them to post. It's getting ridiculous so I though I'd just share with you the very first five things on there:

This "[wine stele](#)" is awesome. When I have a collection of fine wines some day, I'd totally install one of these. Such a simple space saver, and I bet you could easily make your own version. {via [SwissMiss](#)}
